About Archimaze

- ▶ We are an Architectural visualization company with more than 15 years of rich experience but with a different line of thought.
- ▶ We at Archimaze believe in R&D as much as we believe in generating revenues and profits.
- ▶ We have built a capability in the field of Virtual Reality (VR) and Augmented Reality (AR) widely used for Immersive experiences.
- ▶ Our 3D animations are widely used in different fields of Architecture & Urban Planning, and Interior design being two of the major users. In both these situations, we work closely with reputed architects and interior designers.

Services Provided

- ▶ Architectural Visualizations (3D modeling and renderings)
- ▶ 3d animations and walkthrough videos
- ▶ Real time interactive walkthrough for VR headset devices like Samsung Gear, Google Cardboard, Oculus Rift, HTC Vive
- ▶ Augmented reality applications for Microsoft HoloLens, android or iOS devices
- ▶ Virtual reality applications for Google cardboard, google daydream or Samsung gear VR
- ▶ 3d modelling for 3d printing and prototyping

Work Sample
